

HUMANITY WELFARE COUNCIL

" To Grow and Expand "

PROJECT CURE+

We are here for you.

Project Cure is an initiative of the Humanity Welfare Council in the field of Health Care under WellIndia Programme. The motto of our health care policy is that "No individual should fail to secure adequate medical care because of inability to pay for it ". The health services should provide fully developed institutional facilities necessary for proper diagnosis and treatment.

Our main target group are the people from lower socio-economic groups which are lagging behind in the process of growth and development.

Reducing the uneven access to public health care system between the better and owned and the more vulnerable sections of the society is the main corner stone of our health care policy.

Our main emphasis has been laid on the implementation of health programs through local people. There is need to ensure improved standard of public health and family welfare. Use of generic medicine, awareness about alternative medicine systems like Ayurveda, Homeopathy, Naturopathy, and Yoga are some of the main focus of our health care system.

Help Us save Omveer's Family

A single grain of sand can tip the scale. Even just one kind soul can indeed make a difference. Be the grain that tip the scale toward the alleviation of someone to get the proper medical and health care they needed.

As a growing non-profit and after achieving several successful fundraising for needed in the past, we again need you to help the family of Mr. Omveer Singh,

R/o village Undra, Bharatpur, Rajasthan. Omveer is a farmer by occupation. His all 3 children's could not enjoy their lives because of their medical condition and Mr. Omveer is not able to provide them proper medical care because of huge medical expenses and his poor financial condition. After hearing about tragic story of Mr. Omveer, our team contacted him, meet him and bring them to Delhi and arranged medical consultation for them.

His 2 children, named Dushyant, aged 11 years and baby Nandini aged 7 years, were unable to speak since birth and required surgical intervention so that they could speak. Cost of surgery is around 30,000 for each child which include hospitalization and surgery cost. His 3rd child named Rohit, aged 9 years, suffer from serious spinal, knee and hip deformities since birth and is unable to walk and he need someone to perform his day to day activity. He is even unable to get out of bed of his own and cannot enjoy his life fully with his fellow being and even not able to go to school. He needs various corrective surgeries so that he could walk of his own. Total cost of surgeries is around 20-25 lakhs and these surgeries will be done in series over a span of 1-1 ½ years. This cost include cost of hospitalization and rehabilitation cost as well.

Mr. Omveer spend all his savings for getting their treatments and now not able to cope up with day to day increasing medical cost. He is even unable to send his children to school.

Please donate for the future of these children. Even your little effort can enlighten their lives.
