PROJECT UPHAAR

Project UPHAAR is an initiative of the Humanity Welfare Council (HWC) to encourage people to Donate. Donating to the causes you care about not only benefits the charities themselves, it can be deeply rewarding for you too. Millions of people give to charity on a regular basis to support causes they believe in, as well as for the positive affect it has on their own lives.

It sounds somewhat contradictory, but one important aspect of building wealth is charity. Charity is viewed as important in our society, but the true reason for charity isn't always taught. Religions reinforce charity with the tenets around giving and tithing. Many of us even lose interest thinking whether the money will be utilized in a proper manner or not.

When we donate irrespective of what we donate? Whether it is money or articles. It is always our responsibility to track where our donations are utilised. Donations are good but if properly utilized they can bring a lot of change in the societies.

We accept all kinds of donations whether it is money or any article that either you want to donate or you are no more using it. For example your child is no more playing with his/her toys and you have no further use of those toys. You can send it to us and we will make it available to those children who can't afford it. Your little effort will not only bring smile and happiness in the lives of those children but it will also give you a feeling of satisfaction.
